

# Chartered Health & Safety Manager Outsourcing

Safety & Environmental Consulting Ltd

CHARTERED HEALTH AND SAFETY ADVISORS

Intelligent health and safety solutions

# Chartered health and safety manager outsourcing...

Health & safety management can be a challenging concept for small and medium-sized enterprises, especially in high risk industries and environments. The challenge is to ensure that health and safety is managed by practical, competent people who have an intimate knowledge of your organisation.

Our chartered health and safety manager outsourcing service may be the perfect solution. It provides a highly qualified competent chartered health and safety manager who works as part of your organisation and gets to know your business and its activities.

## Flexible, competitive, qualified and competent...

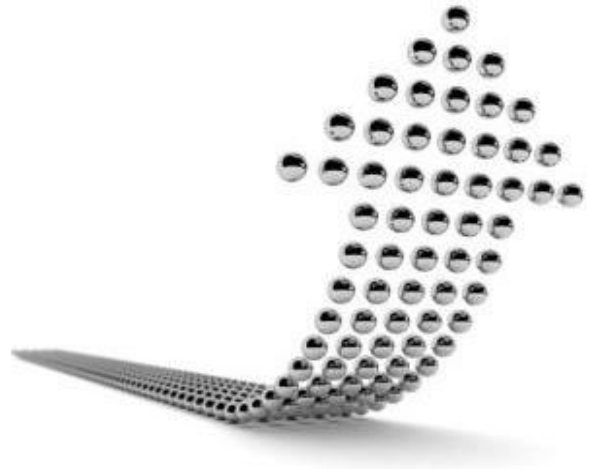

- Highly qualified and experienced chartered safety manager
- Access to a wealth of experience
- Members of the leading health and safety institutes
- Health and safety manager CSCS card holders
- Professional indemnity and public liability insurance
- Considerable savings compared to consultancy fees
- Cost savings compared to directly employing a full-time advisor
- Available from just 1 day a month

# An effective & productive solution...

The provision of a highly qualified and experienced chartered health and safety manager can really make all the difference to your health and safety management and help ensure that health and safety risk management is adequately covered.

Safety & Environmental Consulting's chartered health and safety manager outsourcing service is the ideal solution for small and medium sized enterprises that may not require a full-time health and safety advisor, but do require a competent practitioner to be present on a regular basis at a competitive cost.

## Chartered health and safety manager outsourcing fees...
